# AB-FC 506

Quick cleaner

## Description:

Powerful alkaline cleaner for many persistent types of pollution

## Characteristics:

- good cleaning- and degreasing properties
- removes fat, dirt, carbon, oil, soot and nicotine deposit
- odourless
- low foaming
- biodegradable

## Application:

**AB-FC 506** is an alkaline, powerful, water-based, biodegradable cleaner for a quick and efficient removal of fat, oil, dirt, carbon, soot and nicotine deposits and other persistent stains. **AB-FC 506** can be used as a universal cleaning and degreasing agent for coated and non-coated surfaces. **AB-FC 506** can be diluted with hot or cold water. Best results will be achieved by spraying **AB-FC 506** onto the surface, cleaning the substrate and rinsing directly with clean water or wiping with a moist cloth. When cleaning machinery always rinse with water.

Dosage: Normal pollution: 1 litre **AB-FC 506** on 10 litres water  
Heavy pollution: 1 litre **AB-FC 506** on 5 litres water  
Special application: **AB-FC 506** undiluted; in case of e. g. extreme heavy soot pollution

**N/B:** Do not use on glass, mirrors or spectacles glasses; etching effect on these surfaces.

## Technical Data:

|  |   |
|--|---|
| Mixing ratio   | 1-component   |
| Density (23°C)   | approx. 1.03 g/cm <sup>3</sup>                        |
| Viscosity (23°C)   | liquid  |
| Class of hazard (water)  | 2   |
| pH-value at 20°C   | <b>AB-FC 506</b> undiluted = 13.5                     |
|  | 1 part of <b>AB-FC 506</b> : 2 parts of water = 12.8  |
|  | 1 part of <b>AB-FC 506</b> : 5 parts of water = 12.5  |
|  | 1 part of <b>AB-FC 506</b> : 10 parts of water = 12.2 |
|  | 1 part of <b>AB-FC 506</b> : 20 parts of water = 11.8 |
| All above values are approximate and may be used as a guideline for specifications |   |

## Hazard warnings:

Xi (Irritating)

## Safety advises:

Irritating to eyes and skin. Keep out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Ensure sufficient ventilation. In case of insufficient ventilation use respiratory protection. Avoid inhalation of the vapours. Wear suitable protective clothing, gloves and goggles. After contact with skin, wash immediately with plenty of water and soap. When using do not eat, drink, smoke and keep away from sources of ignition. Do not empty into drains or the aquatic environment. For additional references to safety-hazard warnings, regulations regarding the transport and waste management please refer to the relevant Safety Data Sheet and the label.

## Packaging:

500 ml - spray bottle  
10 ltr. - tin

## Colour:

green

## Storage:

12 months, unopened in original drums under dry conditions and a temperature of 15 - 25°C. Protect against frost.

**AB-FC 506**; 2.00/07.01.19. Before use, please check that this is the actual edition of the Technical Data Sheet. The information contained in this Technical Data Sheet is of a general nature and is provided in good faith and we accept no liability for errors or omissions. Because use and application of this product are out of our control and depend, concerning substrate, load and method of application, on the particularities of the individual case, our advice, verbal, written or based on tests, does not exempt the applicator from testing the suitability of the products for the intended use.
